Case Management Definition

CASE MANAGEMENT is a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through communication and available resources to promote quality cost-effective outcomes.

MAC'S PHARMACY

At Mac's Pharmacy, your locally owned independent pharmacy, we partner with you to improve your health. We provide information on healthy living through a series of free monthly sessions that focus on diabetes and heart care. We offer these, along with many other unique programs, to demonstrate our commitment to local health and well-being. Some of the services we offer include compounding, medication therapy management, Medi-Sync and Medi-Sync Plus, immunizations and much more. **We are a different kind of pharmacy and we want to partner with you in improving your health.**
